Notebooks as well as projectors, monitors and printers can be effectively secured with the BASE XX locking systems. The Cable Lock Nano is suitable for all models with the commonly used 2.5 x 6mm slot and compatible with the Kensington Nano Security Slot*. Flexible workplace design thanks to rotatable head. The sheathed multi-strand steel cable is 1.5m long and has a diameter of 4.4mm. The functional Velcro strap allows the cable to be rolled up for compact storage and transportation. Two keys are included as part of the delivery. This lock is a standalone version and cannot be integrated into a larger locking system. *Nano Security Slot(TM) is a trademark of a third party without a connection to DICOTA.
